

Powering Canada's travel industry since 1987

For travel agencies, there is a **TOURS tab** available in SIREV and various GDS vacation platforms that allow shopping and booking for coach tours (including land only).

For travel agencies online, there is a **TOURS web module** available to expand online offering.

For tour suppliers, **TIM** (Tours Inventory Management) is an affordable back-office solution to finally give tour suppliers national exposure.

You can also **find out more** by consulting our respective websites:
